Dear Parent(s):

The Undergraduate Committee (UGC) of DA-IICT congratulates you on your ward's admission to its B.Tech. program, and welcomes you to the DA-IICT community.

As you must be aware, DA-IICT upholds the highest standards in engineering education, and expects its students to excel in academics as well as in extra-curricular activities; and hopes that each student will experience an overall development during his/her four years of stay here.

We believe that for the all-round development of students, they need support not only from their institution and peers, but also a caring involvement (though not interference!) of their parents.

Most of the students will be away from their home for the first time. The nurture, warmth and overseeing they have been used to at home needs to be continued, albeit from a distance. As far as their academic performance is concerned, they need to be congratulated and felicitated by their parents when they do well. They need to be gently encouraged when their performance is only average. They need to be closely and constantly motivated, when they do poorly, or are in the danger of being discontinued from the Institute.

DA-IICT follows a grading system. Every semester, a student is awarded a point out of 10 (which is called SPI) based on his/her performance in the courses. The cumulative grade points (called CPI) are computed across all semesters combined. DA-IICT does not give percentage marks. This may often be confusing to the parents. Therefore, for your future reference, we provide you a table below, indicating the broad performance parameters for various point ranges.

CPI (out of 10)	Remarks
Above 9	Excellent
Between 8 and 9	Very good
Between 6.5 and 8	Above average
Between 5 and 6.5	Below average – need to worry a little
Between 4 and 5	Danger zone – must improve
Below 4	Failing – will have to leave the Institute

Please also note that:

- For graduating from DA-IICT, a student must have a CPI greater than 5.0.
- Most companies that come for campus placements allow only students whose CPI is above 6.5 to appear for their placement process.
- Parents are welcome to interact with Dean-Academic Programs (dean_ap@daiict.ac.in, 079-30510584), Convenor-UGC (ug_convenor@daiict.ac.in, 079-30510563) and Dean-Students (dean_students@daiict.ac.in, 079-30510649) in person or through phone/email about any issues/queries related to their ward.

With sincere regards

Convenor – UGC
